Vaschetta contropiastra nylon colorato.
Finestra decentrata per regolazione 1,5mm mediante rotazione di 180°.

Colored nylon cover tray for strike plate.
Decentralized window for 1,5mm adjustment by 180° rotation.

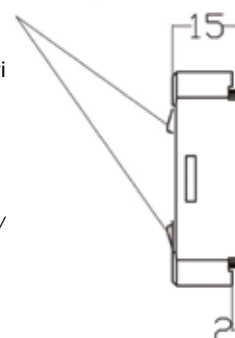

Alette flessibili tengono la vaschetta sempre contro alla contropiastra risolvendo errori di profondità nella fresata sul telaio. Profondità fresata:

$$15,5^{+0,5}_{-0,5}$$

Flexible fins keep the cover tray always against the strike plate, solving depth errors in frame milling. Depth of the milling:

$$15,5^{+0,5}_{-0,5}$$
